

Shugars Board and Batten
AL-V1-D-214

This frame house is located in the Stoney Run area near Westernport. Because it was acquired by the present owner through adverse possession it is impossible to determine the past ownership of the building, but it is highly probable that it was a company house built by the Hampshire and Baltimore Coal Company early in the second half of the nineteenth century. The rural area was the site of that company's miners and was commonly known as Hampshire Mines.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Shugars Board and Batten House is located on Stoney Run Road near Westernport.

The building is a two story, three bays wide frame structure covered with board and batten. It rests on a high foundation of coursed rock-faced ashlar stone with a plain water table. The gable flank roof is covered with tar paper. Eaves consist of a cornice and decoratively carved brackets. The only chimney on the main block of the building is a pipe chimney on the interior. A small board and batten addition on the northeast has a gabled roof and rests on wooden posts. A large stone chimney is located outside end of the addition.

The main entrance is in the center of the southwestern facade and includes a door of three panels and one light with original hardware. Two over two light sash windows are pegged. A shed roofed porch on the southwest is partially dismantled and a similar porch on the northeast was partially removed for the addition.

STATEMENT OF SIGNIFICANCE

This frame house is located in the Stoney Run area near Westernport. Because it was acquired by the present owner through adverse possession it is impossible to determine the past ownership of the building, but it is highly probable that it was a company house built by the Hampshire and Baltimore Coal Company early in the second half of the nineteenth century.(1) The rural area was the site of that company's miners and was commonly known as Hampshire Mines.(2) The company opened its relatively small operation in 1856. (3) In her history of the mining region Katherine Harvey states that in 1864 the Hampshire and Baltimore Coal Company built six houses for miners at Hampshire Mines. (4)
